EDUCATION

BS in Computer Science
Iloilo Science and Technology University
2018 - 2022
Iloilo, Philippines

ABOUT ME

Software Engineer with 3 years of professional experience developing, maintaining, and improving production web applications using C#, .NET, ASP.NET Core/MVC, SQL Server, Entity Framework, JavaScript, and jQuery.

Experienced in building full-stack business applications, REST APIs, database-driven systems, third-party integrations, background processes, and complex business workflows. Strong background working with existing production codebases, troubleshooting application issues, improving system reliability, and delivering features across both backend and frontend.

Currently experienced with AI-assisted software development using tools such as Claude Code, ChatGPT, and GitHub Copilot, with a focus on reviewing, testing, and validating AI-generated code before integrating it into production systems. Strong problem-solving skills with a practical approach to software development, system debugging, database optimization, and delivering maintainable solutions for real business requirements.

ERIKA MAE BALDOVE

Software Engineer | Full Stack Developer

TECHNICAL SKILLS

Languages:

C#, VB.NET, JavaScript, SQL

Backend & Frameworks:

.NET 8, ASP.NET Core, ASP.NET MVC,
.NET Framework 4.8, Web API, Entity Framework

Frontend:

HTML5, CSS3, JavaScript, jQuery, Vue.js,
Bootstrap, Razor, React, TypeScript

Database:

Microsoft SQL Server, Entity Framework,
Database Design, Query Optimization

APIs & Integrations:

REST APIs, JSON, Third-Party API Integration, Webhooks,
AJAX

Background Processing & Infrastructure:

Hangfire, Task-based Background Processing, Docker,
Jenkins, GitHub Actions

Development Tools:

Visual Studio, Visual Studio Code, Git, NuGet

AI-Assisted Development:

Claude Code, ChatGPT, GitHub Copilot, Gemini

SELECTED PROJECT EXPERIENCE

Voyadores ERP

C#, .NET, ASP.NET, SQL Server, Entity Framework, JavaScript, jQuery, Bootstrap

Developed and maintained a multi-module ERP platform covering Sales, Accounting, HR, Inventory, Fleet, and Management, including APIs, database logic, frontend features, validations, and document generation.

CRM Platform

C#, .NET, SQL Server, JavaScript, jQuery, Entity Framework

Contributed to a CRM platform for Leads, Targets, Companies, Contacts, Campaigns, and Newsletters, implementing database workflows, validation, filtering, importing/exporting, and background processing.

API & Background Processing

C#, .NET, REST APIs, SQL Server, Hangfire, JavaScript

Developed REST APIs and asynchronous background processes for large-scale workflows, including progress tracking, error handling, integrations, and performance improvements.

ERIKA MAE BALDOVE

Software Engineer | Full Stack Developer

PROFESSIONAL EXPERIENCE

WNS

2023

JR. DESKTOP SUPPORT ENGINEER

- Provided IT solutions with a focus on desktop support, network management, and technical troubleshooting, including the deployment, configuration, and repair of PCs and laptops.

NESV Philippines, Inc.

2023 - 2024

SOFTWARE ENGINEER I

- Developed and maintained web applications, assisted in debugging and testing, and collaborated with teams to deliver system features and improvements using C#, JavaScript, and SQL.

NESV Philippines, Inc.

2024 - Present

SOFTWARE ENGINEER II

- Developed and maintained production ERP and CRM applications using C#, .NET, ASP.NET, SQL Server, Entity Framework, JavaScript, and jQuery.
- Built full-stack features, REST APIs, database workflows, and business logic across Sales, Accounting, HR, Inventory, Fleet, and CRM modules.
- Developed frontend functionality using JavaScript, jQuery, Bootstrap, AJAX, and TomSelect/Selectize.
- Implemented background processing with Hangfire, data validation, imports/exports, document generation, and system integrations.
- Investigated and resolved production issues, performance bottlenecks, database problems, and application errors.
- Used Claude Code, ChatGPT, and GitHub Copilot to accelerate development while reviewing and validating generated code.

ADDITIONAL STRENGTHS

- Full-stack development
- Production application maintenance
- API development and integration
- Database-driven application development
- Debugging and root-cause analysis
- Legacy codebase maintenance and modernization
- Business process automation
- AI-assisted software development
- Independent problem solving
- Cross-functional collaboration
